### ❌ Words/phrases we don't like

- Experts
- Students*

  Always use 'learners', unless the communication is related to the Level UP program. In this case, we can use 'students' as well
- Young talent

  Our communication challenge: how do we speak about students in a way that shows their benefit to employers but doesn't overpromise e.g. they bring enthusiasm, a fresh perspective and digital know-how
- Scholar
- Internships

  For the academic program. 'Internship' is used for Riipen Level Up
- Fully-subsidized
